Did you know ...that nearly 50% of all college graduates have household student loan debt averaging \$38,000.

Is this your situation too? If so, then know that we at **GotZoom** may possibly be your path to securing student loan relief. We can do this by matching your federal student loan with all qualifying government subsidy and loan forgiveness programs so as to ideally achieve a significant loan cost reduction; thereby reducing your current financial stress and making it perhaps finally possible for you to purchase your first home, start a family, fund your retirement account, etc..

Who we are not ... **GotZoom** is not a lender or a federal loan servicer (i.e., bill collector). And we are not paid a commission by the Department of Education to service loans.

Who we are ... **GotZoom** is an employee benefit service provider focused solely on matching federal student loan holders with the myriad of 70+ US Department of Education (DOE) & State repayment and loan forgiveness programs to maximize loan cost reduction. We do this with our student loan holder clientele in a consultative, unbiased manner. Our services are not just limited to a one-time analysis and federal repayment program enrollment, but also span the remaining life of our client's restructured student loan by annually recertifying to ensure mandatory federal compliance.

Since 2012, **GotZoom's** proven system has successfully reduced principle balance and payment amounts for tens of thousands of our clients by an average of 65%.

So regardless if you are a teacher, administrator, secretary, coach, or counselor, **GotZoom** has a wealth of expertise in navigating through all the complexities inherent within the federal & state student loan cost subsidy and loan forgiveness programs available to achieve debt relief using ...

GotZoom's Proven 4-Step Program:

Identify: By us providing you an informative three-minute video (see web link below), you can quickly determine if our services are right for you and/or your spouse. If so, you can request a **FREE** personalized loan cost reduction analysis, and will not be obligated to move forward with program enrollment.

Maximize: We at **GotZoom** will find the best subsidy plans to maximize cost reduction results for your federal student loan. Ideally, both loan cost subsidy reduction AND loan forgiveness will apply. Your assigned **GotZoom** advisor will help you fully understand your reduction analysis results, explore your options to move forward, and answer all of your questions.

Enroll: With your permission, we can initiate and manage the transition of your federal student loan to a DOE repayment program configured properly to achieve your loan debt reduction; as well as arrange for a 2 to 3 month student loan payment abatement (i.e., meaning no payments due from you) while this DOE loan paperwork transition is occurring.

Recertify: As mandated, we will continually work with you every year until your loan is paid off to recertify your student loan with the DOE to maintain federal compliance; thereby avoiding adverse penalties by not doing so properly in a timely manner.
